

GRADUATE BUSINESS DEGREES POWER MINNESOTA PROFESSIONALS

MBA/MAM GRADS SHARE THEIR STORIES

Alumni of the College's graduate management programs serve in leadership roles in a diverse list of industries. They include everything from marketing executives and healthcare administrators to military leaders and beyond.

Their success and career preparedness are testaments to the way that St. Scholastica's graduate business programs have evolved over the years to meet the needs of business professionals and the communities they serve. Current offerings include the MBA in Rural Healthcare and the MBA in Leadership and Change — both of which empower students with a deeper understanding of complex business principles, and equip them with tools to drive their respective organizations toward sustainable growth.

We caught up with five of our distinguished graduate business program alumni to hear more about what they do, and how their degrees have shifted their perspective to fuel success.
